CERTIFICATION SCOPE

Hydro Extruded Solutions for activities including ingot casting, rolling of aluminium coils and strips, extrusion, fabrication and surface finishing of aluminium profiles, and manufacture of aluminium tubes. The Certification Scope covers the Hydro sites: Albi (France), Atessa (Italy), Avintes (Portugal), Bedwas (United Kingdom), Bellenberg (Germany), Birtley (United Kingdom), Chateauroux (France), Cheltenham (United Kingdom), Chrzanów (Poland), Drunen including Pole Products (Netherlands), Feltre (Italy), Finspång (Sweden), Ghlin (Belgium), Gloucester (United Kingdom), Harderwijk (Netherlands), Hoogezand (Netherlands), Itu (Brazil), La Roca (Spain), La Selva (Spain), Landen (Belgium), Lichtervelde (Belgium), Łódź (Poland), Lucé (Extrusion) (France), Magnor (Norway), Miranda (Spain), Navarra (Spain), Nenzing (Austria), Offenburg (Germany), Ornago (Italy), Pilar (Argentina), Puget-sur-Argens (France), Rackwitz (Extrusion) (Germany), Raeren (Belgium), Sjunnen (Sweden), Székesfehérvár (Hungary), Suzhou (China), Tibshelf (United Kingdom), Tønder Extrusion (Denmark), Tønder Precision Tubing (Denmark), Toulouse (France), Trzcianka (Poland), Tubarão (Brazil), Uphusen (Germany), Utinga (Brazil) Vetlanda (Sweden), Žiar nad Hronom (Slovakia) and the Extruded Solutions corporate office (Norway) and Brazil Division corporate office, Itu (Corporate) (Brazil).

AUDIT SCOPE

Initial Certification Audit (18 October 2018 – 8 February 2019)

The audit scope covered the Hydro Aluminium Extruded Solutions for the extrusion and fabrication of aluminium profiles at the sites in Bellenberg (Germany), Lichtervelde (Belgium) and the corporate office (Norway).

Supply chain activities included in the audit scope:

- Semi-Fabrication

All relevant criteria in the ASI Performance Standard were included in the audit scope.

First Scope Change Audit (18 March 2019 – 24 June 2019)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions sites Lichtervelde Precision Tubing (Belgium), Toulouse (France), Rackwitz (Germany), Uphusen (Germany) and Nenzing (Austria).

Supply chain activities included in the audit scope:

- Aluminium Re-melting/Refining
- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Second Scope Change Audit (18 March 2019 – 19 July 2019)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions sites Atessa (Italy), Drunen including Pole Products (Netherlands), Feltre (Italy), Ghlin (Belgium), Harderwijk (Netherlands), Ornago (Italy) and Raeren (Belgium).

Supply chain activities included in the audit scope:

- Aluminium Re-melting/Refining
- Casthouses
- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Third Scope Change Audit (12 November 2019 – 20 December 2019)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions sites, Albi (France), Avintes (Portugal), Bedwas (United Kingdom),

Birtley (United Kingdom), Chateauroux (France), Cheltenham (United Kingdom), Chrzanów (Poland), La Roca (Spain), La Selva (Spain), Lucé (Extrusion) (France), Miranda (Spain), Navarra (Spain), Puget-sur-Argens (France), Tibshelf (United Kingdom) and Trzcianka (Poland).

Supply chain activities included in the audit scope:

- Casthouses
- Semi-Fabrication
- Material Conversion (Production and Transformation)

Fourth Scope Change Audit (22 January 2020 – 12 February 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions sites, Finspång (Sweden), Sjunnen (Sweden), Tønder PT and Vetlanda (Sweden).

Supply chain activities included in the audit scope:

- Casthouses
- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Fifth Scope Change Audit (3 March 2020 – 4 March 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions site at Offenburg (Germany). Supply chain activities included in the audit scope:

- Semi-Fabrication

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Sixth Scope Change Audit (5 May 2020 – 6 May 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions site at Łódź (Poland).

Supply chain activities included in the audit scope:

- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

At the time of the audit (May 2020), access to the site was not possible, due to COVID-19 related travel restrictions. The audit has been undertaken as a 'desktop' exercise, in accordance with the ASI Interim Policy regarding Audits, Audit-Related Travel and Coronavirus (v4), and included a remote review of relevant documentation.

Seventh Scope Change Audit (18 June 2020 – 19 June 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions site at Székesfehérvár (Hungary).

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

At the time of the audit (June 2020), access to the site was not possible, due to COVID-19 related travel restrictions. The audit has been undertaken as a 'desktop' exercise, in accordance with the ASI Interim Policy regarding Audits, Audit-Related Travel and Coronavirus (v4), and included a remote review of relevant documentation.

Eighth Scope Change Audit (25 August 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions site at Žiar nad Hronom (Slovakia).

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

At the time of the audit (August 2020), access to the site from some audit personnel was not possible, due to COVID-19 related travel restrictions. The audit was undertaken with one auditor on site and the other in a 'desktop' capacity, in accordance with the ASI Interim Policy regarding Audits, Audit-Related Travel and Coronavirus (v4), and included both an on-site and remote review of relevant documentation.

Ninth Scope Change Audit (25 August 2020 – 26 August 2020)

The audit scope covered the activities at the Hydro Aluminium Extruded Solutions Hydro Building System (HBS) site at Landen (Belgium).

Supply chain activities included in the audit scope:

- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Tenth Scope Change Audit (12 November 2020)

The audit scope covered the activities at Hydro Aluminium Extruded Solutions Tønder Extrusion site (Denmark).

Supply chain activities included in the audit scope:

- Semi-Fabrication

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Eleventh Scope Change Audit (14 October 2020)

The audit scope covered the activities at Hydro Aluminium Extruded Solutions Magnor site (Norway).

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Twelfth Scope Change Audit (17 – 18 November 2020)

The audit scope covered the activities at Hydro Aluminium Extruded Solutions Gloucester site (United Kingdom).

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Thirteenth Scope Change Audit (21 – 22 September 2021)

The audit scope covered the material conversion, extrusion, anodizing, powdercoating and thermal break at the Hydro Aluminium Extruded Solutions Hoogezand site (Netherlands).

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

At the time of the audit (September 2021), access to the site was not possible, due to COVID-19 related travel restrictions. The audit has been undertaken as a 'desktop' exercise, in accordance with the ASI Interim Policy regarding Audits, Audit-Related Travel and Coronavirus (v4), and included a remote review of relevant documentation, photos of all production processes, including chemicals and waste handling and use of video conferencing for interviews and opening and closing meetings.

Fourteenth Scope Change Audit (24 – 25 November 2021)

The audit scope covered the design, manufacture and marketing of Aluminium Profiles and Bars with different surface treatments at the Hydro Aluminium Extruded Solutions Pilar site (Argentina).

Supply chain activities included in the audit scope:

- Semi-Fabrication

All relevant criteria in the ASI Performance Standard were included in the audit scope.

At the time of the audit (November 2021), access to the site was not possible, due to COVID-19 related travel restrictions. The audit has been undertaken as a 'desktop' exercise, in accordance with the ASI Interim Policy regarding Audits, Audit-Related Travel and Coronavirus (v4), and included a remote review of relevant documentation, photos of all production processes, including chemicals and waste handling and use of video conferencing for interviews and opening and closing meetings.

Fifteenth Scope Change Audit (6– 17 December 2021)

The audit scope covered the Hydro Extruded Products Division in Brazil, including the three extruded products factories Itu, Tubarão and Utinga and the management activities of the Itu headquarters in São Paulo, Brazil.

Supply chain activities included in the audit scope:

- Aluminium Re-melting/Refining
- Casthouses
- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Sixteenth Scope Change Audit (5 – 7 January 2022)

The audit scope covered the extrusion facility in Suzhou (China), including the die shop, anodization and value-add processes.

Supply chain activities included in the audit scope:

- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Re-Certification Audit (21 September 2021 – 30 March 2022)

The audit scope included sites Ghlin (Belgium), La Roca (Spain), Lucé (Extrusion) (France), Miranda (Spain), Ornago (Italy), Rackwitz (Extrusion) (Germany), Sjunnen (Sweden), Székesfehérvár (Hungary) and Trzcianka (Poland) and the corporate office (Norway).

Supply chain activities included in the audit scope:

- Aluminium Re-melting/Refining
- Casthouses
- Semi-Fabrication
- Material Conversion (Production and Transformation)

All relevant criteria in the ASI Performance Standard were included in the audit scope.

Certification

AUDIT
METHODOLOGY
DECLARATION

The Auditors confirm that:

- The information provided by the Entity is true and accurate to the best knowledge of the Auditor(s) preparing this report.
- The findings are based on verified Objective Evidence relevant to the time period for the Audit, traceable and unambiguous.
- The Audit Scope and audit methodology are sufficient to establish confidence that the findings are indicative of the performance of the Entity's defined Certification Scope.
- The Auditor(s) have acted in a manner deemed ethical, truthful, accurate professional, independent and objective.

SUMMARY OF FINDINGS

CRITERION	RATING	COMMENT
PRINCIPLE 1 BUSINESS INTEGRITY		
1.1 Legal Compliance	Conformance	<p>The Entity has systems in place to maintain awareness of and ensure compliance with Applicable Law. The Entity's Code of Conduct is available at the following link: https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/compliance-and-integrity/our-code-of-conduct/</p> <p>Further information on legal compliance assessment could be found in the Annual Report (in section Risk review and compliance, controls and procedures): https://www.hydro.com/Document/Doc/Annual%20report%202020.pdf?docId=568502</p>
1.2 Anti-Corruption	Conformance	<p>The Entity works against Corruption in all its forms, including Extortion and Bribery, consistent with Applicable Law and prevailing international standards. The Entity implemented an Anti-Corruption Policy and Integrity program, by training and compliance activities. The Entity's Code of Conduct is available at the following link: https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/compliance-and-integrity/our-code-of-conduct/</p>
1.3 Code of Conduct	Conformance	<p>The Entity has implemented a Code of Conduct procedure including principles relevant to environmental, social and governance performance. The Entity's Code of Conduct is available at the following link: https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/compliance-and-integrity/our-code-of-conduct/</p>
PRINCIPLE 2 POLICY & MANAGEMENT		
2.1a Environmental, Social, and Governance Policy (implement and maintain)	Conformance	<p>The Entity has implemented and maintains Environmental, Social and Governance Policies. The Entity's Policies are available at the following link: www.hydro.com/principles</p>
2.1b Environmental, Social, and Governance Policy (senior management)	Conformance	<p>The Policies and procedures are reviewed and updated on a regular basis, and senior management approves all corporate Policies and procedures.</p>
2.1c Environmental, Social, and Governance Policy (communication)	Conformance	<p>The Entity communicates the Policies internally, and externally as appropriate. For instance, in the Annual Report on the website and as part of the Management System:</p>

CRITERION	RATING	COMMENT
		https://www.hydro.com/Document/Doc/Annual%20report%202020.pdf?docId=568502
2.2 Leadership	Conformance	The Entity has nominated a senior Management Representatives as having overall responsibility and authority for ensuring conformance with the requirements of the ASI Performance Standard.
2.3a Environmental and Social Management Systems (environmental)	Conformance	The Entity has documented and implemented integrated Environmental and Social Management Systems: www.hydro.com/principles
2.3b Environmental and Social Management Systems (social)	Conformance	A Social Management System has been established and implemented and is certified in accordance with ISO 45001. Social and Occupational Health and Safety impacts are identified and assessed, and the associated management provisions for preventing and/or mitigating these impacts are established and implemented.
2.4 Responsible Sourcing	Conformance	The Entity has implemented a responsible sourcing Policy covering environmental, social and governance issues: https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/responsible-supply-chain/
2.5 Impact Assessments	Conformance	The Entity has conducted environmental, social, cultural and Human Rights Impact Assessments, including a gender analysis, for new projects and major changes to existing facilities: https://www.hydro.com/en/investors/reports-and-presentations/
2.6 Emergency Response Plan	Conformance	The Entity has developed site-specific Emergency Response Plans in collaboration with potentially affected stakeholder groups such as Communities, Workers and their representatives and relevant agencies.
2.7 Mergers and Acquisitions	Conformance	The Entity has reviewed environmental, social and governance issues in the Due Diligence process for mergers and acquisitions. These elements are governed by the Entity's Capital Value Process (CVP).
2.8 Closure, Decommissioning and Divestment	Conformance	The Entity has processes and procedures to review environmental, social and governance issues in the planning process for closure, decommissioning and divestment.

CRITERION	RATING	COMMENT
3.1 Sustainability Reporting	Conformance	The Entity publicly discloses its governance approach and its material environmental, social and economic impacts. The reporting is accessible through the Global Reporting Index (GRI) Index reporting: https://www.hydro.com/globalassets/download-center/investor-downloads/ar20/gri-index-2020.pdf
3.2 Non-compliance and liabilities	Conformance	The Entity publicly discloses information on significant fines, judgments, penalties and non-monetary sanctions for failure to comply with Applicable Law through its annual reporting. The Hydro Global Reporting Index (GRI) Index is available at the following links: https://www.hydro.com/en/investors/reports-and-presentations https://www.hydro.com/globalassets/download-center/investor-downloads/ar20/gri-index-2020.pdf
3.3a Payments to governments (legal and contractual)	Conformance	The Entity only makes, or has made on its behalf, payments to governments on a legal and/or contractual basis. This is disclosed in the Annual Report: https://www.hydro.com/en-NO/investors/reports-and-presentations/annual-reports/annual-report-2020/
3.3b Payments to governments (disclosure – bauxite mining)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
3.4 Stakeholder complaints, grievances and requests for information	Conformance	The Entity has implemented accessible, transparent, understandable and culturally and gender sensitive Complaints Resolution Mechanisms, adequate to address stakeholder complaints, grievances and requests for information relating to its operations, accessible through the following link: https://www.hydro.com/en/contact-us/
PRINCIPLE 4 MATERIAL STEWARDSHIP		
4.1a Environmental Life Cycle Assessment (life cycle impacts)	Conformance	The Entity evaluates life cycle impacts of its major product lines for which Aluminium is considered or used, e.g., through Life Cycle Assessments (LCA) studies performed by independent institutions or case by case with customer interactions and needs. The Entity is ISO 14001 certified.
4.1b Environmental Life Cycle Assessment (cradle to gate)	Conformance	The Entity publicly communicates cradle-to-gate Life Cycle Assessment (LCA) information through international studies and is a key contributor with analysis and data.
4.1c Environmental Life Cycle Assessment (public communication)	Conformance	The Entity publicly communicates Life Cycle Assessment (LCA) information through international

CRITERION	RATING	COMMENT
		<p>studies, which are available on the International Aluminium Institute website: http://www.worldaluminium.org/media/filer_public/2017/06/28/lca_report_2015_final.pdf and the European Aluminium website: https://www.european-aluminium.eu/resource-hub/environmental-profile-report-2018 The public communications include the underlying assumptions, including the system boundaries.</p>
4.2 Product design	Conformance	<p>The Entity has integrated clear objectives in the design and development process for products or components to enhance sustainability, including the environmental life cycle impacts of the end product. Hydro has developed a climate strategy to ensure it produces Aluminium with a low energy consumption and low GHG emissions. Where product design occurs at Hydro Extruded sites, an optimization program is used for the design, to maximize sustainability outcomes, such as through reduction of scrap.</p>
4.3a Aluminium Process Scrap (targets)	Conformance	<p>The Entity has established strategies targeting 100% scrap for collection, recycling and/or reuse, supporting a circular economy thinking.</p>
4.3b Aluminium Process Scrap (alloy separation)	Conformance	<p>The Entity has established appropriate systems and processes to separate Aluminium alloys and grades for recycling.</p>
4.4a Collection and recycling of products at end-of-life (strategy)	Conformance	<p>The Entity aims to advocate Aluminium as a building block for the low-carbon circular economy, continuing to reduce its environmental footprint and increasing recycling of Post-Consumer Scrap. Targets, activities and timelines have been established, including collection and recycling of products at end-of-life, available at the following link: https://www.hydro.com/en/aluminium/about-aluminium/aluminium-life-cycle/ and Annual Report 2020, page 35: https://www.hydro.com/globalassets/download-center/investor-downloads/ar20/annual-report-2020-new.pdf</p>
4.4b Collection and recycling of products at end-of-life (engagement)	Conformance	<p>The Entity is engaging in different recycling initiatives and increasing capacity to process Post-Consumer Scrap. For example, the 75R (75% post-consumer recycling content) claim is available at the following link: https://www.hydro.com/en/aluminium/products/low-carbon-aluminium/hydro-circal/</p>

CRITERION	RATING	COMMENT
5.1 Disclosure of GHG emissions and energy use	Conformance	The Entity discloses GHG emissions and energy use in its environmental reporting as part of the Annual Report: https://www.hydro.com/en/investors/reports-and-presentations/
5.2 GHG emissions reductions	Conformance	The Entity has defined a roadmap to reduce its emissions by 10% by 2025 and 30% by 2030 from a 2018 baseline. It is committed to achieving net zero emissions by 2050 or earlier. The commitment is published on the Entity's website: https://www.hydro.com/en/sustainability/our-targets/
5.3a Aluminium Smelting (management system)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
5.3b Aluminium Smelting (up to and including 2020)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
5.3c Aluminium Smelting (after 2020)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
PRINCIPLE 6 EMISSIONS, EFFLUENTS AND WASTE		
6.1 Emissions to Air	Conformance	The Entity has implemented systems and procedures to minimize impacts, and reports Emissions to Air to authorities and internally. The aggregated performance is presented in the Annual Report, available on the Entity's website.
6.2 Discharges to Water	Conformance	The Entity has implemented systems and procedures to minimize impacts and reports Discharges to Water to authorities and internally.
6.3a Assessment and Management of Spills and Leakage (assessment)	Conformance	The Entity is ISO 14001 certified and regularly assesses major risks related to environmental aspects and potential Spills and Leakage from the production processes.
6.3b Assessment and Management of Spills and Leakage (management)	Conformance	The Entity has extensive plans, compliance controls and a monitoring programme in place to prevent and detect Spills and Leakage. An external communication procedure for Spills and Leakage is implemented.
6.4a Reporting of Spills (immediate disclosure)	Conformance	The Entity implements a system and a reporting culture to address and disclose potential significant Spills.
6.4b Reporting of Spills (regular reporting)	Conformance	The Entity implements a system and a reporting culture to address and disclose potential significant Spills:

CRITERION	RATING	COMMENT
		https://www.hydro.com/en/investors/reports-and-presentations/
6.5a Waste management and reporting (strategy)	Conformance	The Entity has a strong strategy on recycling and waste mitigation, developed in accordance with the Waste Mitigation Hierarchy. Several projects and investment on improving recycling and reducing waste are implemented.
6.5b Waste management and reporting (disclosure)	Conformance	The Entity publicly discloses the waste generation and disposals in the Annual Report: https://www.hydro.com/en/investors/reports-and-presentations/
6.6a Bauxite Residue (storage construction)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.6b Bauxite Residue (integrity checks and controls)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.6c Bauxite Residue (water discharge)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.6d Bauxite Residue (marine and aquatic environments)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.6e Bauxite Residue (start of the art technologies)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.6f Bauxite Residue (remediation)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.7a Spent Pot Lining (SPL) (storage and management)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.7b Spent Pot Lining (SPL) (recovery and recycling)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.7c Spent Pot Lining (SPL) (Untreated SPL)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.7d Spent Pot Lining (SPL) (review of alternatives)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.7e Spent Pot Lining (SPL) (marine and aquatic environments)	Not Applicable	This Criterion is not applicable to the Entity's Certification Scope.
6.8a Dross (recovery)	Conformance	Dross generated from those Entity's sites with casting operations is treated with a corporate partner to maximise the recovery of Aluminium. Also, the Entity implements processes to reduce generation of Dross.

CRITERION	RATING	COMMENT
6.8b Dross (recycling)	Conformance	Dross generated from those Entity's sites with casting operations is treated with a corporate partner. Dross fines are recycled. The Entity implements processes to reduce generation of Dross.
6.8c Dross (review of alternatives)	Not Applicable	This Criterion is not applicable as the Entity does not send treated Dross to landfill.
PRINCIPLE 7 WATER STEWARDSHIP		
7.1a Water assessment (mapping)	Conformance	The Entity has mapped its water withdrawal and use locally and reports through internal environmental reporting.
7.1b Water assessment (risk assessment)	Conformance	The Entity has assessed risks related to operational, internal and external risks in its Area of Influence. The Area of Influence included in the assessments varies for each facility but considers, factors including nearby water bodies, aquifers, sensitive environments, competing users for the water resource and impacts from associated facilities. The Entity's water withdrawal, use and water related risks are low because most of the Entity's sites have closed-loop water management systems.
7.2a Water management (management plans)	Conformance	The Entity maps risks and implements a management plan. Time-bound targets and actions are established.
7.2b Water management (monitoring)	Conformance	The Entity supports the UN's Sustainable Development Goals (SDG's) and identified water stewardship as a priority topic of its operations. The Entity monitors the effectiveness of its water management plans.
7.3 Disclosure of water usage and risks	Conformance	The Entity has mapped its water withdrawal and use and reports site-specific data through the Hydro Environmental Reporting platform, as well as to local authorities. Material water-related risks are also publicly disclosed. The water management strategy at the corporate level is disclosed in the Annual Report 2020, page 35: https://www.hydro.com/globalassets/download-center/investor-downloads/ar20/annual-report-2020-new.pdf
PRINCIPLE 8 BIODIVERSITY		
8.1 Biodiversity assessment	Conformance	The Entity has assessed the risk and materiality of the impacts on Biodiversity from the land use and activities in the Entity's Area of Influence. The Area of Influence included in the assessments varies for each facility but takes into account, depending on

CRITERION	RATING	COMMENT
		<p>relevance, factors such as proximity to sensitive environments, and impacts from associated facilities, as appropriate. The sites are all located in industry park settings and the Biodiversity Mitigation Hierarchy is implemented in the methodology. The Entity details its support to international initiatives on loss of biodiversity and degradation, especially in areas with high influence. The Entity is reporting on Biodiversity issues to stakeholders in their Annual Report:</p> <p>https://www.hydro.com/en/investors/reports-and-presentations/annual-reports</p>
8.2a Biodiversity management (biodiversity action plans)	Conformance	<p>The Entity has assessed the risk and materiality of the impacts on Biodiversity from the land use and activities in the Entity's Area of Influence. The sites are all located in industry park settings and the Biodiversity Mitigation Hierarchy is implemented in the methodology. The assessment has time-bound targets and the plan is monitored for effectiveness. The Entity details its support to international initiatives on loss of biodiversity and degradation, especially in areas with high influence. The Entity is reporting on Biodiversity issues to stakeholders in their Annual Report:</p> <p>https://www.hydro.com/en/investors/reports-and-presentations/annual-reports</p>
8.2b Biodiversity management (consultation and mitigation hierarchy)	Conformance	<p>The Entity has assessed the risk and materiality of the impacts on Biodiversity from the land use and activities in the Entity's Area of Influence. Affected personnel and external stakeholders have been consulted, informed and trained about the management plans and controls. The sites are all located in industry park settings and the Biodiversity Mitigation Hierarchy is implemented in the methodology. The Entity details its support to international initiatives on loss of biodiversity and degradation, especially in areas with high influence. The Entity is reporting on Biodiversity issues to stakeholders in their Annual Report:</p> <p>https://www.hydro.com/en/investors/reports-and-presentations/annual-reports</p>
8.2c Biodiversity management (reporting)	Conformance	<p>The Entity has assessed the risk and materiality of the impacts on Biodiversity from the land use and activities in the Entity's Area of Influence. The sites are all located in industry park settings and the Biodiversity Mitigation Hierarchy is implemented in the methodology. The Entity details its support to international initiatives on loss of biodiversity and degradation, especially in areas with high influence.</p>

CRITERION	RATING	COMMENT
		The Entity reports on Biodiversity issues to stakeholders in the Annual Report: https://www.hydro.com/en/investors/reports-and-presentations/annual-reports
8.3 Alien Species	Conformance	The Entity has implemented procedures and guidance on environmental and product stewardship addressing topics such as Biodiversity and Alien Species, and is proactive in preventing the deliberate or accidental introduction of Alien Species.
8.4a Commitment to “No Go” in World Heritage properties (exploration and new mines)	Not Applicable	This Criterion is not applicable to the Entity’s Certification Scope.
8.4b Commitment to “No Go” in World Heritage properties (existing operations)	Not Applicable	This Criterion is not applicable to the Entity’s Certification Scope.
8.5a Mine rehabilitation (best available techniques)	Not Applicable	This Criterion is not applicable to the Entity’s Certification Scope.
8.5b Mine rehabilitation (financial provisions)	Not Applicable	This Criterion is not applicable to the Entity’s Certification Scope.
PRINCIPLE 9 HUMAN RIGHTS		
9.1a Human Rights Due Diligence (policy)	Conformance	The Entity’s Policy includes commitment to respect Human Rights according to the UN Guiding Principles on Business and Human Rights.
9.1b Human Rights Due Diligence (process)	Conformance	The Entity has mapped out Human Rights risks with the Danish Institute for Human Rights (DIHR) on the entirety of its supply chain including business partners and subcontractors, detailed by country and site, with a focus on the upstream and downstream value chain of Hydro Business Areas. A Human Rights Due Diligence process is in place that seeks to identify, prevent, mitigate and account for how it addresses its actual and potential impacts on Human Rights.
9.1c Human Rights Due Diligence (remediation)	Conformance	The Entity has mapped out Human Rights risks on the entirety of their supply chain including business partners and subcontractors, detailed by country and site, with a focus on the upstream and downstream value chain of Business Areas. A Human Rights risk mapping for the Entity has recently been conducted as part of the Enterprise Risk Management process. Mitigating actions are implemented in response to the findings and recommendations.

CRITERION	RATING	COMMENT
9.2 Women's Rights	Conformance	<p>The Entity's Code of Conduct clearly states the equality between genders, and is working on raising the share of women in the workforce:</p> <p>https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/compliance-and-integrity/our-code-of-conduct</p>
9.3 Indigenous Peoples	Conformance	<p>The Entity has a corporate Human Rights Policy. The Brazil Division has implemented an assessment of Indigenous Peoples and Political Quilombolas and their Area of Influence to ensure respect for the rights and interests of Indigenous Peoples, in accordance with international standards. The assessment determined the Entity does not have any direct or indirect impact on Indigenous or Quilombola Communities.</p>
9.4 Free, Prior, and Informed Consent (FPIC)	Conformance	<p>The Entity has a corporate Human Rights Policy. The Brazil Division has implemented an assessment of Indigenous Peoples and Political Quilombolas and their Area of Influence to ensure respect for the rights and interests of Indigenous Peoples, in accordance with international standards. The assessment determined the Entity does not have any direct or indirect impact on Indigenous or Quilombola Communities.</p>
9.5 Cultural and sacred heritage	Conformance	<p>The Entity has a corporate Human Rights Policy. The Brazil Division has implemented an assessment to identify and preserve cultural or historical heritage in its Area of Influence to ensure respect for the rights and interests of the community. The assessment determined the Entity does not have any direct or indirect impact on Indigenous or Quilombola Communities.</p>
9.6a Resettlements (avoid or minimise)	Conformance	<p>The Entity has a corporate Human Rights Policy and has implemented a procedure at Group level that covers impacts of Resettlements.</p> <p>The Brazil Division has implemented an assessment for environmental, social, cultural and Human Rights Impact Assessments, including gender analysis and for new projects or major changes to existing facilities. A Site Evaluation Checklist has been developed to support social impact assessments, considering viable alternatives to avoid or minimize physical and/or economic displacement, while balancing environmental, social and financial costs and benefits, paying special attention to impacts on the poor and vulnerable, including women.</p>

CRITERION	RATING	COMMENT
9.6b Resettlements (where unavoidable)	Conformance	<p>The Entity has a corporate Human Rights Policy and has implemented a procedure at Group level that covers impacts of Resettlements.</p> <p>The Brazil Division has implemented an assessment for environmental, social, cultural and Human Rights Impact Assessments, including gender analysis and for new projects or major changes to existing facilities. A Site Evaluation Checklist has been developed to support social impact assessments, considering viable alternatives to avoid or minimize physical and/or economic displacement, while balancing environmental, social and financial costs and benefits, paying special attention to impacts on the poor and vulnerable, including women.</p>
9.7a Local Communities (rights and interests)	Conformance	<p>The Entity's Community engagement and corporate sustainability reporting guidelines demonstrate respect to legal and customary rights and interests of Local Communities. There are documented Policies and procedures for identifying and assessing the legal and customary rights of Local Communities. The Entity has recently conducted a Human Rights risk mapping in the Enterprise Risk Management process.</p>
9.7b Local Communities (impacts)	Conformance	<p>The Entity takes appropriate steps to prevent and address any adverse impacts on Local Community livelihoods resulting from its activities. The Entity has conducted a follow-up on relevant findings from the Human Rights Report, and has recently conducted a Human Rights risk mapping in the Enterprise Risk Management process. Complaints Resolution Mechanisms are established.</p>
9.7c Local Communities (livelihoods)	Conformance	<p>The Entity has a proactive approach to working with Local Communities and neighbourhood organizations to improve and support mutual interests.</p>
9.8 Conflict-Affected and High-Risk Areas	Not Applicable	<p>This requirement is not applicable for the Certification Scope where the Entity operates.</p>
9.9 Security practice	Conformance	<p>The Entity adheres to the Voluntary Principles on Security and Human Rights, regardless of their geographic location. This is addressed in the Annual Reports available on their website: https://www.hydro.com/en/investors/reports-and-presentations/annual-reports/</p>
PRINCIPLE 10 LABOUR RIGHTS		
10.1a Freedom of Association and Right to Collective Bargaining (freedom of association)	Conformance	<p>The Entity has established a People Directive procedure. In this procedure it clearly states the</p>

CRITERION	RATING	COMMENT
		<p>recognition of the principle of Freedom of Association and the right to join employee organizations. For the Suzhou site, there are laws that restrict Freedom of Association in China. However, the Entity demonstrates they respect the right to Freedom of Association and to Collective Bargaining. The Entity commits itself to respect the Workers' rights. There is a Trade Union with ten committee members which includes three Workers' representatives with three members being women.</p>
<p>10.1b Freedom of Association and Right to Collective Bargaining (collective bargaining)</p>	<p>Conformance</p>	<p>The Entity has established a People Directive procedure. In this procedure it clearly states the recognition of the principle of Freedom of Association and the right to join employee organizations. For the sites in the Entity's Certification Scope, there is a freely elected Workers Council and Collective Bargaining Agreements implemented. For the Suzhou site, there are laws that restrict Collective Bargaining in China. Although there are no collective bargaining agreements in place at Suzhou, the Entity has a policy of respecting rights to Freedom of Association and Collective Bargaining.</p>
<p>10.1c Freedom of Association and Right to Collective Bargaining (alternative means)</p>	<p>Conformance</p>	<p>For the Suzhou site, there are laws that restrict Freedom of Association and Collective Bargaining in China. However, the Entity demonstrates they respect the right to Freedom of Association and to Collective Bargaining and the Trade Union deals with management regarding Workers' concerns.</p>
<p>10.2a Child Labour (minimum age)</p>	<p>Conformance</p>	<p>There is no employment of Workers under the age of 16 years. The Entity has established a People Directive procedure which clearly states that Hydro does not accept Child Labour and will not hire employees under the age of 16 years.</p>
<p>10.2b Child Labour (hazardous)</p>	<p>Conformance</p>	<p>There is no employment of Workers under the age of 16 years. The Entity has established a People Directive procedure which clearly states that Hydro does not accept Child Labour and will not hire employees under the age of 16 years.</p>
<p>10.2c Child Labour (worst forms)</p>	<p>Conformance</p>	<p>There is no employment of Workers under the age of 16 years. The Entity has established a People Directive procedure which clearly states that Hydro does not accept Child Labour and will not hire employees under the age of 16 years.</p>
<p>10.3a Forced Labour (human trafficking)</p>	<p>Conformance</p>	<p>The Entity's Code of Conduct and Supplier Code of Conduct restricts Forced Labour:</p>

CRITERION	RATING	COMMENT
		https://www.hydro.com/en/sustainability/business-integrity-and-responsible-sourcing/compliance-and-integrity/our-code-of-conduct/ Social accountability supplier audits are performed to ensure compliance.
10.3b Forced Labour (deposits, fees, advances)	Conformance	There were no incidents detected at the Entity's sites. There are no deposits held and no recruitment fees are paid.
10.3c Forced Labour (migrant workers)	Conformance	There were no incidents detected at the Entity's sites. There are no deposits held and no recruitment fees are paid.
10.3d Forced Labour (debt bondage)	Conformance	There were no incidents detected at the Entity's sites.
10.3e Forced Labour (freedom of movement)	Conformance	There were no incidents detected at the Entity's sites. Workers are free to leave their working places.
10.3f Forced Labour (retention of identity papers, permits, certificates)	Conformance	The Entity does not keep original identity papers, only copies are stored.
10.3g Forced Labour (freedom to terminate employment)	Conformance	Conditions of termination of working contracts are defined by law, collective bargaining agreements and described in personal Worker contracts.
10.4 Non-Discrimination	Conformance	There was no Discrimination detected during audits and interviews at the Entity's sites.
10.5 Communication and engagement	Conformance	<p>The Workers council has regular meetings with management representatives and are part of the Health and Safety Committees.</p> <p>For the Suzhou site, a regular trade union meeting, as well as a grievance and complaint hotline and website have been established. Operating procedures have been developed and implemented to ensure open communication and direct engagement with Workers regarding working conditions and resolution of workplace and compensation issues, without threat of reprisal, intimidation or harassment.</p>
10.6 Disciplinary practices	Conformance	There were no incidents of mental or physical punishment were detected at the Entity's sites.
10.7a Remuneration (living wage)	Conformance	<p>Living wages are paid at Entity's sites. Wages are defined due to collective bargaining agreements and Trade Union Wage tables.</p> <p>For the Suzhou site, the wage structure is clearly defined and the basic wage meets the legal minimum wage. The total payment also meets the Workers' basic needs.</p>

CRITERION	RATING	COMMENT
10.7b Remuneration (method of payment)	Conformance	<p>Payment of wages is conducted monthly in a punctual manner. All Workers receive payment with payment details.</p> <p>For the Suzhou site, payment of wages is documented and made to all Workers via bank transfer on the first working day of the following month. Sampled records identified instances where wages for overtime hours were not paid in the correct month however, responsibilities and deadlines have been established to have monthly overtime hours paid monthly, in the correct month.</p>
10.8 Working Time	Conformance	<p>Different shift models are in place for the Entity's sites. These are approved by the Workers council and local authorities. Public holidays and annual leave are paid according to local law.</p> <p>For the Suzhou site, working hours are recorded by IC Card (Integrated Circuit Card) system. Working hours are also monitored.</p>
PRINCIPLE 11 OCCUPATIONAL HEALTH AND SAFETY		
11.1a Occupational Health and Safety (OH&S) Policy (policy)	Conformance	The Entity is certified to ISO 45001, with an Integrated System Policy approved by senior management.
11.1b Occupational Health and Safety (OH&S) Policy (workers and visitors)	Conformance	The Entity's Policy on Health, Safety and Environment (HSE) is communicated in several ways. For instance, publicly on the website or visually on boards and through training and contracts with external stakeholders.
11.1c Occupational Health and Safety (OH&S) Policy (applicable law and standards)	Conformance	The Entity is certified to ISO 45001, with an Integrated System Policy according to international standards and ILO Conventions on Occupational Health and Safety, and approved by senior management.
11.1d Occupational Health and Safety (OH&S) Policy (right to stop unsafe work)	Conformance	The Entity's Policy on Health, Safety and Environment (HSE) addresses the importance of safe work always being the most important, and a commitment to comply with all Applicable Laws.
11.2 OH&S Management System	Conformance	The Entity has documented and implemented an Occupational Health and Safety Management System that is conformant with applicable national and international standards.
11.3 Employee engagement on health and safety	Conformance	The Entity follows industry best practices on Occupational Health and Safety with close cooperation between management and the employees.

CRITERION	RATING	COMMENT
11.4 OH&S performance	Conformance	The Entity evaluates its Occupational Health and Safety performance regularly and several key performance indicators are addressed on Occupational Health and Safety. The Entity has several tools for evaluating performance and continuous improvement.

Document Control and Version History

Revision	Date	Notes
0	26 April 2019	Issued
1	18 September 2019	Updated to reflect Certification Scope change with addition of sites (Hydro Aluminium Extruded Solutions sites Lichtervelde Precision Tubing (Belgium), Toulouse (France), Rackwitz (Germany), Uphusen (Germany) and Nenzing (Austria)) and supply chain activities Aluminium Re-melting / Refining and Material Conversion.
2	14 December 2019	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions sites: Atessa (Italy), Drunen including Pole Products (Netherlands), Feltre (Italy), Ghlin (Belgium), Harderwijk (Netherlands), Ornago (Italy) and Raeren (Belgium).
3	12 February 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions sites: Albi (France), Avintes (Portugal), Bedwas (United Kingdom), Birtley (United Kingdom), Chateauroux (France), Cheltenham (United Kingdom), Chrzanów (Poland), La Roca (Spain), La Selva (Spain), Lucé (Extrusion) (France), Miranda (Spain), Navarra (Spain), Puget-sur-Argens (France), Tibshelf (United Kingdom) and Trzcianka (Poland).
4	2 March 2020	Revised to correct transcription errors in Rev 3 regarding audit scope and two public headline statements.
5	4 March 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions sites: Finspång (Sweden), Sjunnen (Sweden), Tønder Precision Tubing (Denmark) and Vetlanda (Sweden).
6	17 April 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Offenburg (Germany).
7	30 June 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Łódź (Poland).
8	15 September 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Székesfehérvár (Hungary).
9	8 October 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Žiar nad Hronom (Slovakia).
10	30 October 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Landen (Belgium).
11	3 December 2020	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Tønder Extrusion (Denmark).
12	14 January 2021	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Magnor (Norway).
13	28 January 2021	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Gloucester (United Kingdom).
14	3 November 2021	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Hoogezand (Netherlands); Reordered the Supply Chain Activities list and reflected the revised order in the Audit Scope description for First and Second Scope Change Audits; Updated the Supply Chain Activity of Material Conversion with '(Production and Transformation)', and at every relevant occurrence in the Audit Scope description. Note: Prior to the current Certification Scope change, the Hoogezand site held a valid ASI Performance Standard Certification for the period 9 November 2018 – 8 November 2021 (Hydro Extrusion Hoogezand B.V., Certificate 10).
15	20 January 2022	Updated to reflect Certification Scope change with addition of Hydro Aluminium Extruded Solutions site Pilar (Argentina).
16	1 April 2022	Updated to reflect Certification Scope change with addition of Brazil Division sites Itu, Tubarão and Utinga and the Itu corporate office; Correction to remove Supply Chain Activities not relevant to the Audit Scope for the Fourteenth Scope Change Audit (Pilar, Argentina) (Rev 15).

Revision	Date	Notes
17	28 April 2022	Non-audit related update to reflect the one month extension granted to allow sufficient time for reporting on the completed Scope Change Audit (for Suzhou) and Re-Certification Audit. Lichtervelde Precision Tubing (Belgium) removed from the Certification Scope as the facility was acquired by a new owner and converted to a standalone Certification to Remi Claeys on 1 December 2021 (Certificate 170).
18	6 May 2022	Scope Change Audit to include Suzhou (China).
19	20 June 2022	Re-Certification Audit. Revision to the name of the Rackwitz site to include "(Extrusion)".
